

ATHUL RAJ V M

Full Stack Developer

athulrajvm2002@gmail.com | +91 7902849015 | Kozhikode, India | [linkedin.com/in/athul-raj-vm](https://www.linkedin.com/in/athul-raj-vm)

PROFESSIONAL SUMMARY

Full Stack Developer with 1.7 years of hands-on experience designing and building end-to-end web applications using Python, Django, MySQL, HTML, CSS, and JavaScript. Experienced across the full stack — from front-end interfaces to backend logic, database design, and RESTful APIs — with production systems in accounting, billing, and patient-record management. Proven track record of delivering measurable efficiency improvements and clean, maintainable code.

PROFESSIONAL EXPERIENCE

Full Stack Developer (Python / Django) | Altos Technology, Kochi, Kerala

Oct 2024 – May 2026

- Developed a full-stack accounting application using Python, Django, and MySQL to manage ledgers, invoicing, and expense tracking, improving data entry efficiency by 30%.
- Built an interactive online aptitude test platform with real-time result calculation and admin analytics using Django ORM and MySQL.
- Designed a patient record management system handling appointments, billing, and prescription logs, with secure authentication and role-based access control.
- Designed a role-based billing system supporting admin, cashier, and manager roles, with invoice generation, sales tracking, and permission controls.

SKILLS

Languages: Python, Java

Web & Backend: Django (MVT, REST APIs, authentication), HTML, CSS, JavaScript

Database: MySQL (schema design, query optimization, indexing)

Tools & Practices: Git, GitHub, Agile methodology, debugging, code documentation

Other: Microsoft Word, Microsoft Excel

ACADEMIC PROJECTS

Identifying Students At-Risk and Minimizing Failure

Dec 2023 – May 2024

- Built a hybrid ensemble model (Logistic Regression, SVM) to predict student performance and flag at-risk students early, supporting failure-prevention interventions.

Stock Visualization and Forecasting Tool

Jun 2023 – Aug 2023

- Built a machine learning model to forecast stock prices using real-time market data.

Shoes Cart — E-Commerce Website

Nov 2023

- Built a Django-based e-commerce platform for browsing and purchasing shoes across categories.

KnowledgeFlow — Learning Institution Management Platform

Nov 2023

- Built a Django-based platform for tuition institutions with dedicated admin, teacher, and student modules.

EDUCATION

B.Tech, Information Technology	2020 – 2024
<i>KMCT College of Engineering, Kozhikode, India — CGPA: 6.74</i>	
Higher Secondary Certificate	2020
<i>NGO Quarters Higher Secondary School, Kozhikode, India — 74%</i>	
Secondary School Leaving Certificate	2018
<i>GHSS Medical College Campus, Kozhikode, India — 84.2%</i>	

CERTIFICATIONS

- Internship in Cyber Security and Ethical Hacking
- Data Visualization and Storytelling using Power BI

LANGUAGES

English, Hindi, Malayalam
